Experience required: 5 years in research

Job description

The successful candidate will be a member of the Accelerator division at VBLHEP JINR. The division work is focused on the development of the NICA accelerator facility. ***The candidate will work with high power amplifiers of the RF system.***

Skills

Expert level of skills in the field of generating and transporting high-power microwave energy (solid-state generators, transmitting devices). Experience in organizing and safe conducting experimental and commissioning work, in planning and analyzing experiment results, in training the operating personnel.

Knowledge of English at the level of technical translation and participation in negotiations.

Constraints and risks

Shift work and weekend work may be necessary. The work will be carried out at accelerator facilities whereby the necessary authorizations will be issued following the annual medical examination arranged by the employer.

How to apply

Applicants should submit a detailed CV, a summary of research interests, a list of publications, highlighting representative publications, and arrange to have at least two reference letters sent by the referees to the email address below. These documents should be addressed to Prof. V.D. Kekelidze and sent to Anna Rassadova, rassadova@jinr.ru.

Short-listed candidates will be invited to an interview, remotely or in person.
