### Job description

The successful candidate will be a member of the Accelerator division at VBLHEP JINR. The division work is focused on the development of the NICA accelerator facility. ***As a high-level software expert, the candidate will be involved in the development of various software packages.***

### Skills

Experience in developing programs for the Windows operating system, with knowledge of top-level languages C++, C#, AVR studio, KEIL, etc. with subsequent debugging and development. The abilities to develop the necessary technical documentation for the project and to work with national standards and regulations.

Proficiency in English for negotiations is essential. Basic knowledge of Russian for foreigners will be an advantage.

### Constraints and risks

Shift work and weekend work may be necessary. The work will be carried out at accelerator facilities whereby the necessary authorizations will be issued following the annual medical examination arranged by the employer.

### How to apply

Applicants should submit a detailed CV, a summary of research interests, a list of publications, highlighting representative publications, and arrange to have at least two reference letters sent by the referees to the email address below. These documents should be addressed to Prof. V.D. Kekelidze and sent to Anna Rassadova, [rassadova@jinr.ru](mailto:rassadova@jinr.ru).

Short-listed candidates will be invited to an interview, remotely or in person.
